## FOR IMMEDIATE RELEASE

### Culvert Replacement Project on US 395

REDDING – The Department of Transportation has awarded a \$283,000 construction contract for the replacement of culvert across US Route 395 in eastern Lassen County. Construction crews and equipment from Clemens Construction Co., of Chico, will perform the specified work at a location approximately 16 miles north of Litchfield. Work is expected to begin Monday, September 30 and will be completed by late October.

Motorists on US 395 will be subject to one-way traffic conditions controlled by flaggers 24 hours a day with delays of up to five minutes. A permanent lane closure with a concrete barrier will be in place to detour traffic around the work site. Workers and equipment will be in the area Monday through Friday from 7:00 AM to 7:00 PM.

Advance warning signs will alert motorists when approaching the work zone. Motorists are asked to reduce their speed and be prepared to stop at the traffic control stations.

The Caltrans Resident Engineer will be Dave Greene.
